OBJECTIVE

Dedicated and detail-oriented Computer Engineering graduate seeking an entry-level position to leverage my technical skills in software development, problem-solving abilities, and eagerness to learn in a dynamic and growth-oriented environment. Committed to contributing to innovative projects and collaborating with a team to drive success and deliver impactful results.

ACADEMIC PROFILE

Yadavrao Tasgaonkar Institute of Engineering and Technology

B.E. Computer Engineering

C.G.P: 7.7

11/2021 – 05/2024

Mumbai, India

Muchhala Polytechnic

Diploma in Computer Engineering

Percentage: 85%

10/2018 – 08/2021 | Thane, India

St. John The Baptist High School

S.S.C

Percentage: 84%

06/2017 – 04/2018 | Thane, India

PROFESSIONAL SKILL SET

Programming Languages

HTML, CSS, JavaScript, C++, Python

Operating Systems

Windows, Linux(Basics)

Databases

MySQL, MongoDB

Professional Tools

Microsoft Office, Word, Powerpoint, Excel

CERTIFICATES

Python with Data Structures, Data Bases and Data Science

Kamal Classes, Thane

JavaScript MERN Full Stack

Kamal Classes, Thane

PROFESSIONAL EXPERIENCE

Javascript Developer Intern

07/2023 – 08/2023

MIRA Advanced Engineering

Thane, India

Delivered solutions in assigned tasks related to platforms like BMI Calculator, Reservation management.

Python Developer Intern

11/2022 – 01/2023 | Thane, India

Trivia Softwares

Helped Trivia team to make Python GUI app to perform CRUD operations using MongoDB, also used api integration to gather user's location to display weather and time in their specific region.

PROJECTS

Alumni Connect Website

2023 – 2024

Project made under college domain

Helped my team by designing User Interface by creating components like Flexbox, Tables and Forms that work seamlessly with MySQL databases along with integrating multiple CSS libraries.

Homestyx

2020 – 2021

An Augmented Reality project

My team, consisting of myself and two other members, developed a local Augmented Reality (AR) application for home decor recommendation, inspired by the IKEA Place app. The application uses a mobile phone's camera to scan the surroundings and identify planar surfaces for spawning 3D objects. It was created using the Unity engine and coded in C#.

Portfolio Website

Developed for Visual Artist

Created a responsive website for a visual artist as per requirements by using different style components like Masonry Grid, Cards, etc.

PERSONAL DETAILS

Date of Birth

7th september 2002

Gender

Male

Marital Status

Unmarried

Languages Known

English, Hindi, Marathi

Strengths

Fast Learner, Collaborative, Problem Solver, Passionate

Hobbies

Sports, Gaming, Bikes, Music

DECLARATION

I hereby declare that all the facts and figures furnished above are true to my knowledge.
